Superintendent of Fremont Public Schools

Dear Fremont Public Schools community,

On May 6, 2025, the district will be asking voters to decide on the renewal of our Sinking Fund. **For 10 years, this fund has been an essential tool in helping us maintain our infrastructure** and keep students safe, warm, wired, and dry.

If renewed, this Sinking Fund could help us provide the best possible education to our students by making **technology, mechanical, and safety upgrades**.

For example, updating security at the football field, refreshing technology at every school on a rotating basis, and making practical renovations to student learning spaces.

While these upgrades aren't super flashy, they are necessary to carry us through to the next phase.

As we approach this ballot initiative, we are committed to **transparency** and providing ongoing **communication** about this plan and process.

I have **open-door policy** and welcome any **questions** you may have. I will also be making appearances at school functions to answer questions and provide more information.

FREQUENTLY ASKED QUESTIONS

Q: Why renew the Sinking Fund?

A: The sinking fund's renewal would allow the district to make critical improvements and upgrades to our campus facilities, **such as renovations to aging buildings, technology upgrades, and, potentially, new construction.**

Q: Will this raise my taxes?

A: If renewed, this sinking fund initiative would not raise millage rates. Instead, it would maintain the existing rate, to **allow the district to continue growing in a steady, sustainable way.**

Q: Where can I learn more?
